

Kim Yuen

FRONTEND DEVELOPER

Profile

Hi there! :)

I'm a developer of the frontend variety who's ended up here after a weird and wonderful journey of mechanical, mining and recycling engineering. My motto as a developer is "If you're the smartest person in the room, you're in the wrong room". I love learning, especially when it comes to becoming a better developer.

Experience

Frontend Developer, VicRoads

NOVEMBER 2022 – PRESENT

- Convert high-fidelity Figma designs into code
- Provide support for production issues and incidents
- Participating in all aspects of agile project delivery and interacting with all project stakeholders
- Writing maintainable, secure, scalable, performant and well-tested code
- Contributing to the wider development lifecycle by submitting and reviewing pull requests and participating in continuous delivery and release management

Junior Frontend Developer, AKQA

JANUARY 2022 – NOVEMBER 2022

- planning, developing and delivering high-performing web solutions for clients across the AKQA Australia network
- works closely in an Agile environment with designers, UX specialists, developers, marketing automation specialists and project managers
- predominantly working on the frontend using React, Next.js and TypeScript following UI/UX principles

Senior Mechanical Engineer, Vibroflow

JULY 2016 – DECEMBER 2021

- managed all aspects of the design, manufacturing and production processes
- preparing/reviewing drawings (AutoCAD/Solid works), calculations, and reports to make recommendations for engineering improvements
- commission and perform vibration analysis to heavy duty machinery

Education

BEng Mechanical Engineering (Hons), Monash University

FEBRUARY 2012 – JUNE 2016

Graduated with Honors

Melbourne High School

Captain of the Senior Badminton Team

Study Abroad

Monash Malaysia, Kuala Lumpur

JULY 2015 – NOVEMBER 2015

Awarded the Study Abroad Scholarship
